What Is Claritin?

Claritin contains **Loratadine**, a non-drowsy antihistamine that helps reduce allergy symptoms caused by pollen, mold, dust, pet allergies, and other environmental triggers.

Claritin is commonly used to help relieve:

- Sneezing
- Runny nose
- Itchy or watery eyes
- Itchy throat or nose
- Skin allergies and hives

Unlike some older antihistamines, Claritin is designed to provide allergy relief without causing significant drowsiness for most users.

Uses of [Claritin](#)

1. Seasonal Allergy Relief

Claritin helps reduce symptoms associated with seasonal allergies, including hay fever and pollen reactions.

2. Indoor Allergy Management

It can also help manage allergies triggered by dust mites, pet dander, and mold exposure.

3. Skin Allergy Support

Claritin may help reduce itching and discomfort caused by mild skin reactions or hives.
